Re: Property: 449-451 S 7th St

Newark, NJ 07108

Borrower: n/a

File No.: 447 S 7th St

Opinion of Value: \$ 64,000 Effective Date: 12/21/2022

In accordance with your request, we have appraised the above referenced property. The report of that appraisal is attached.

The purpose of the appraisal is to develop an opinion of market value for the property described in this appraisal report, as improved, in unencumbered fee simple title of ownership.

This report is based on a physical analysis of the site and improvements, a locational analysis of the neighborhood and city, and an economic analysis of the market for properties such as the subject. The appraisal was developed and the report was prepared in accordance with the Uniform Standards of Professional Appraisal Practice.

The opinion of value reported above is as of the stated effective date and is contingent upon the certification and limiting conditions attached.

It has been a pleasure to assist you. Please do not hesitate to contact me or any of my staff if we can be of additional service to you.

Sincerely,

Lance Brown 42RC00271900

File No. 117 S 7th St

• GP LAND: Summary of Sales Comparison Approach -

The sales used are the best available and are considered to be good indicators of value.

All warranted adjustments (are rounded) in this report, the differences extracted from the comparables used in this report/sales data along with this Appraiser's knowledge of and experience in the area as well as based on conversations held with other real estate professionals: appraisers, local builders and realtors from within the subject's area.

The Intended Use is to evaluate the property that is the subject of this appraisal for current market value, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and the Definition of Market Value. No additional intended Users are identified by the appraiser.

Additional Comments:

USPAP 3 year disclosure: I have not performed services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three year period immediately preceding acceptance of this assignment.

This report is based on the extraordinary assumption of no underground oil tank is leaking or has leaked on the property. Use of assumption may affect results.

Appraiser Independence Requirement:

No, employee, director, officer or agent of the lender, or any other third party acting as a joint venture partner, independent contractor, appraisal management company, or partner on behalf of the client has influenced or attempted to influence the development, reporting, result or review of this assignment through coercion, extortion, collusion, compensation, instruction, inducement, intimidation, bribery or in any other manner. I have not been contacted by anyone other than the intended user (lender/client asidentified on the first page of the report), borrower, or designated contact regarding the subject property.

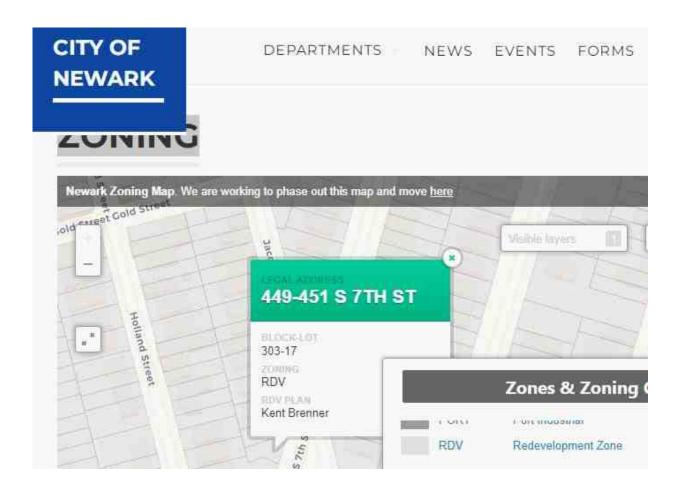

Exposure Time: Opinion of reasonable Exposure Time: 90-180 days if propertly priced. *****The Intended User of this appraisal report is the Lender/Client. ***** This report is based on the extraordinary assumption of no underground oil tank is leaking or has leaked on the property. Use of assumption may affect results.

Ownership of Intellectual Property and/or Data: TPC Appraisal Services expressly retains all right, title, and interest in all patents, trademarks, trade names, trade secrets, software, data, conclusions, opinions, valuations, or other information included in, arising out of, or in any way related to this appraisal or the provision of appraisal services to the named client and/or Intended User. The report and information supplied by the staff and/or agents of TPC Appraisal Services is a culmination of intellectual education, professional experience, personal investigation, and know-how, which shall at all times remain the property of TPC Appraisal Services. No person shall be entitled to break down, strip out, mine, or disseminate any component or part of this report, including, but not limited to, any conclusions, valuations, opinions, or other data compilations herein. Not withstanding, the Intended User as defined above may use this appraisal report and the contents herein for the limited purpose and use identified above.

Comparable selection criteria - In searching for comparables the appraiser has emphasized the most recent sales with a similar location and similar lot size. The appraiser has placed specific emphasis on specific neighborhood sales and sales that have closed within the 180 days prior to inspection. In most cases comparables over 6 months have been eliminated from consideration. All comparables utilized were verified with FMLS/MLS listings. It should be noted that by utilizing listing services the appraiser can determine (with some degree of accuracy) the circumstances surrounding the transaction. Utilize comparables that can be verified via independent traditional data sources (i.e. FMLS, MLS, deed transfer, etc) and avoid unverifiable data that may have been provided by an interested third party such as a buyer, seller, agent, etc. Please note that due to the aforementioned criteria applied by the appraiser, the pool of potential comparables available for use were limited furthermore, sales that may be situated in closer proximity to the subject than the comparables utilized may have been excluded in an effort to select the most appropriate comparables available at the time of inspection. By applying the aforementioned criteria that appraiser is attempting to insure that comparables utilized support the opinion of value, that buyers and sellers were typically motivated and acting in their own interest: well informed or well advised parties: reasonable and customary market exposure: and a price representing normal consideration unaffected by special or creative financing or sales concessions.

*****RDV Zone comment: Per town zoning department(Alec), the subject is located in the RDV zone. This zone allows for legacy lots that are non conforming to the typical 2,500sf (25 x 100) minimum lot size requirement, the opportunity to have single family homes built on them. Subject is surrounded by single family homes front, rear and sides. Per tax records most of these single family homes are built on slightly larger lot sizes than the subject's lot, therefore it is most likely the subject's use would be conforming to what is common to the immediate area and a single family use.

***Comments on subject's neighborhood and property use: mixed property use is typical and common for this neighborhood no adverse market reaction noted or supported.
