Summary of Sales Comparison Approach: All comps are closed sales taken from the same or similar market area. All comps are vacant lots without structures and with similar appeal. Comps used are the best available at the time of inspection. It was necessary for the appraiser to exceed the 12 months and one mile to find similar non conforming closed sales without approvals, all sales share a similar residential zoning to the subject. Greatest weight is given to comps one and two, the most recent closed within the past 12 months, both are a similar non conforming lots with no approvals for construction. Limited land MLS statistics within the subject's market are too small to be statistically significant and as such no trends can be reliably identified from this data, no time adjustment noted for comp three closed outside one year. All comparables utilized were verified with FMLS/MLS listings.

Notwithstanding, the Intended User as defined above may use this appraisal report and the contents herein for the limited purpose and use identified above.

Comparable selection criteria - In searching for comparables the appraiser has emphasized the most recent sales with a similar location and similar lot size. The appraiser has placed specific emphasis on specific neighborhood sales and sales that have closed within the 180 days prior to inspection. In most cases comparables over 6 months have been eliminated from consideration. All comparables utilized were verified with FMLS/MLS listings. It should be noted that by utilizing listing services the appraiser can determine (with some degree of accuracy) the circumstances surrounding the transaction. Utilize comparables that can be verified via independent traditional data sources (i.e. FMLS, MLS, deed transfer, etc) and avoid unverifiable data that may have been provided by an interested third party such as a buyer, seller, agent, etc. Please note that due to the aforementioned criteria applied by the appraiser, the pool of potential comparables available for use were limited furthermore, sales that may be situated in closer proximity to the subject than the comparables utilized may have been excluded in an effort to select the most appropriate comparables available at the time of inspection. By applying the aforementioned criteria that appraiser is attempting to insure that comparables utilized support the opinion of value, that buyers and sellers were typically motivated and acting in their own interest: well informed or well advised parties: reasonable and customary market exposure: and a price representing normal consideration unaffected by special or creative financing or sales concessions.

*****R-3 Zone comment: Per town zoning department (Alec) this zone does not allow for legacy lots that are non conforming to the typical 2,500sf (25 x 100) minimum lot size requirement the opportunity to build without application for a variance.

***Comments on subject's neighborhood and property use: mixed property use is typical and common for this neighborhood no adverse market reaction noted or supported.
